Windy

Pratic
THE OPEN AIR CULTURE

Protezione totale

Vivere l'esterno dall'interno con una tenda verticale che protegge dal vento e dalla pioggia offrendo la comodità di un riparo sicuro.

Total protection

Living outdoor space from the inside with a safe awning which protects from wind and rain, offering a convenient safe shelter.

Totaler Schutz

Mit einer sicheren Markise, die vor Wind und Regen schützt und die Bequemlichkeit eines sicheren Schutzes bietet, kann man die Außenräume von innen erleben.

Protection totale

Vivre l'extérieur de l'intérieur avec un store offrant une protection efficace contre le vent et la pluie tout en garantissant le confort d'un abri apportant toute sécurité.

Protección total

Vivir al exterior como si se estuviera en el interior, con un toldo seguro que repara del aire y de la lluvia ofreciendo la comodidad de un lugar seguro.

Windy può essere realizzata con telo interamente trasparente o con finestre su telo in pvc.

Windy can be made with a completely transparent fabric or with windows PVC fabric.

Windy kann entweder mit einem vollständig durchsichtigen Tuch oder mit Fenstern im PVC-Tuch gefertigt sein.

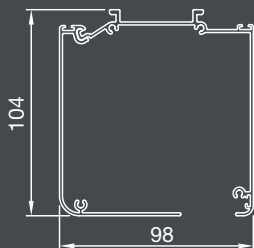

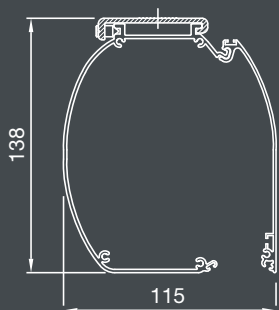

Windy peut être réalisé avec une toile entièrement transparente ou avec des fenêtres sur une toile en PVC.

Windy puede ser realizada con un toldo totalmente transparente o con ventanas incorporadas en un toldo en PVC.

SERIE WINDY CARATTERISTICHE GENERALI

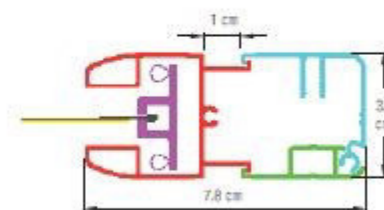

Guide telescopiche

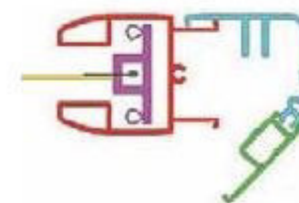

Le guide telescopiche permettono di installare Windy, Square e Aluwindy tra montanti non perpendicolari. Inoltre, hanno la possibilità di espandersi di 1 cm per lato al fine di assecondare eventuali restringimenti del telo dovuti in particolare alla presenza di parti in Cristal.

Posizione standard

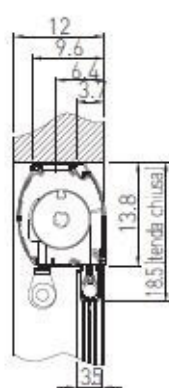

Posizione di massima espansione

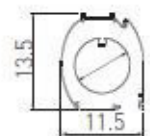

Posizione con guida aperta
